SWIU Networking Reception
Tuesday, June 1, 2010
6:00 p.m. – 8:00 p.m.
Hilton San Francisco
Yosemite A
Welcome

On behalf of the Society of Women in Urology Board of Directors, welcome to the SWIU Annual Events: the Annual Breakfast Meeting, the Women Leaders in Urology Forum and the SWIU Networking Reception. We are thrilled to have an exciting program featuring women urologists and researchers to share with you.

To kick off our 30th Annual Breakfast Meeting, we are honored to have two distinguished representatives of the AUA join us. Datta Wagle, MD, president of the AUA, will provide us with an update on the state of the AUA and Drew Shifflet will discuss leadership and involvement opportunities at the AUA for SWIU members.

Following the AUA update, we are pleased to present our keynote speaker, Anthony Thomas, Jr., MD, of the Cleveland Clinic, Department of Bioethics. He will present Virtue Ethics and the Healing [Female] Physician.

We also have several awards to present including the SWIU/SBUR Award for Excellence in Urologic Research, the Elisabeth Pickett Research Awards and the SWIU Travel Award. Following the presentations, we will host our Annual Business Meeting to propose new society projects and vote on new officers. Finally, we hope to have a few minutes to socialize.

On Tuesday, June 1, SWIU proudly presents the fifth annual Women Leaders in Urology Forum. Jerilyn Latini, MD, Assistant Professor of Urology at the University of Michigan, will lead a discussion on Recurrent Bladder Neck Contractures After Prostatectomy with panelists Rou Wang, MD, Jennifer Anger, MD and Jill Buckley, MD. This CME event is open to all AUA members. We hope you will attend and please encourage your colleagues, students, residents and fellows to do so as well.

The annual SWIU Networking Reception will immediately follow the panel discussion, where SWIU will announce the 2010 recipient of the very important Christina Manthos Mentor Award. We hope you can join us in celebrating this year’s recipient and enjoy some food, drink, fun and networking. All are welcome to the reception: male, female, member and non-member alike!

As always, we look forward to our annual events as an opportunity to provide excellent educational opportunities for our members, highlight women urology leaders amongst our SWIU ranks, acknowledge the work of women in clinical and basic science urology research and spend time with SWIU members from around the country and abroad.

Warmly,
Elizabeth R. Mueller, MD
SWIU President 2009 – 2010
OFFICERS

President

## SWIU Networking Reception

**Tuesday, June 1, 2010**  
6:00 p.m. – 8:00 p.m.  
Hilton San Francisco  
Yosemite A

Everyone is welcome! This is a great opportunity to meet with other urologists to discuss the issues in the field of urology, as well as other medical issues. In addition, SWIU will announce the Christina Manthos Mentor Award winner. We look forward to this great networking opportunity every year and hope to see you there!
VIRTUE ETHICS AND THE HEALING [FEMALE] PHYSICIAN

Educational Needs
The surgical subspecialty of urology has evolved into a complex, highly technical field of medicine filled with robots, miniature cameras and scopes, lasers, high definition ultrasound and a variety of other sophisticated imaging modalities. We are being asked to make our outcomes known to the public in order that they may be better informed as to by whom and where they wish to receive their urologic health care. Analysis of patient satisfaction studies and government directed HCHAP surveys would indicate, however, that patients place a greater emphasis on how they are treated, listened to, respected and cared for than their outcome alone. To quote an early 20th century Harvard physician, Francis Peabody: “... the secret of the care of the patient is in caring for the patient.”

Educational Objectives
1. Describe the changing role of women in medicine (surgery).
3. Examine why this “ethic of care” is so ideally suited for the current practice of medicine/surgery.
4. Understand why “Virtue Ethics”— the ethics of care, is not, nor should it be, limited only to women in medicine.

RECURRENT BLADDER NECK CONTRACTURES AFTER PROSTATECTOMY

Educational Needs
The aim of this forum is to describe the reconstructive options available in the challenging group of patients with recurrent bladder neck contractures after prostatectomy. With the downward stage migration of prostate cancer, we must continue to reduce the morbidity of treatment and aggressively manage complications that may occur. Posterior urethral stenosis after radical prostatectomy occurs as bladder neck contracture. Urethral stenoses, including bladder neck contracture, are somewhat infrequent complications of prostatectomy with or without other therapies. When dilation, urethrotomy and transurethral resection are ineffective for recurrent bladder neck contractures, a urethral stent or posterior urethral reconstruction can be considered. Alternatively, bladder neck closure with a continent catheterizable pouch or incontinent urinary diversion may be reasonable options.

Educational Objectives
1. Evaluate the best management for men with recurrent bladder neck contractures after prostatectomy.
2. Describe the endoscopic techniques for recurrent bladder neck contractures including the evidence regarding use of steroid injection.
3. Describe the pro's and con's of the use of urethral stents for recurrent bladder neck contractures.
4. Describe the role of posterior urethral reconstruction for recurrent bladder neck contractures.
Accreditation
The American Urological Association (AUA) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. The AUA takes responsibility for the content, quality, and scientific integrity of this CME activity.

Credit Designation
The American Urological Association designates this educational activity for a maximum of **2.25 AMA PRA Category 1 Credits™** (Sunday = 1.25, Tuesday = 1.00). Physicians should only claim credit commensurate with the extent of their participation in the activity.

AUA Disclosure Policy
As a provider accredited by the ACCME, the AUA must ensure balance, independence, objectivity and scientific rigor in all its activities.

All faculty participating in an educational activity provided by the AUA are required to disclose to the provider any relevant financial relationships with any commercial interest. The AUA must determine if the faculty’s relationships may influence the educational content with regard to exposition or conclusion and resolve any conflicts of interest prior to the commencement of the educational activity.

Unlabeled or Unapproved Use of Drugs or Devices
It is the policy of the AUA to require the disclosure of all references to unlabeled or unapproved uses of drugs or devices prior to the presentation of educational content. The audience is advised that this continuing medical education activity may contain reference(s) to unlabeled or unapproved uses of drugs or devices. Please consult the prescribing information for full disclosure of approved uses.

Disclaimer
The opinions and recommendations expressed by faculty, authors, and other experts whose input is included in this program are their own and do not necessarily represent the viewpoint of the AUA.

Evidence Based Content
As a provider of continuing medical education accredited by the ACCME, it is the policy of the AUA to review and certify that the content contained in this CME activity is valid, fair, balanced, scientifically rigorous and free of commercial bias.

Special Assistance/Dietary Needs
The American Urological Association (AUA), an organization accredited for Continuing Medical Education (CME), complies with the Americans with Disabilities Act §12112(a). If any participant is in need of special assistance or has any dietary restrictions, a written request should be submitted at least one month in advance. For additional assistance with your request, please call (847) 517-7225.
Christina Manthos Mentoring Award
Christina Manthos was an extraordinary young urologist whose life and career were sadly curtailed by breast cancer. SWIU, as a means of perpetuating the flame of her inspiration and honoring her memory, has established an annual award to recognize those men or women who demonstrate extraordinary mentoring skills in supporting the career of a female urologist. SWIU believes that a mentor is an important element in the life of each professional woman and wants to encourage and reward those who set a good example.

The Christina Manthos Mentoring Award was founded to honor the memory of an esteemed colleague. Christina Lean Manthos earned her medical degree from USUHS in 1990, receiving the Army Surgeon General’s Award and the Janet M. Glasgow award from the American Medical Women’s Association. After a surgical internship at Fitzsimmons AMC, where she won Outstanding Intern of the Year, she was sent to Korea to serve as a clinic commander. Subsequently, she returned to Fitzsimmons AMC, where she completed her urology residency in 1996. She then served with distinction as the assistant chief of the urology service at the USAF Academy and Fort Carson until she lost her battle with breast cancer in 1999. Christina will be fondly remembered as a gifted urologic surgeon, dedicated officer and inspiring mentor.

Society of Women in Urology Travel Award
We are excited by the increasing number of women that are choosing urology as their career and would like to encourage them to actively participate in SWIU activities, especially at the AUA annual meetings. With this in mind, we are proud to continue to offer the SWIU Travel Award for our resident members. The award is designed to assist with the travel expenses of women residents presenting their research at the podium or poster sessions at the AUA annual meeting. A recipient will be selected to receive an award amount of $1,000.00.

Elizabeth Pickett Research Award Program
The Elizabeth Pickett Research Award Program makes funds available for small research grants for basic science or clinical urologic research. The awards may be used to continue or supplement a current project or to initiate a new study. Each candidate for the award must be a trained urologist (MD/DO), a urology resident/fellow or a post-doctoral basic scientist with a research interest in urologic related diseases and dysfunction. Each candidate must also be a current member in good standing with SWIU.

SWIU/SBUR Award for Excellence in Urological Research
SWIU and Society for Basic Urologic Research have a common interest in recognizing the accomplishments of female scientists with a distinguished track record in basic science urological research. The award represents the collaborative efforts of these two societies toward their common goals. Appropriate candidates for this award are members of SBUR who hold an MD, a PhD or both and who have a distinguished track record in urological research. Nominations for this award are accepted by the SBUR (www.sbur.org), who will nominate two candidates for consideration to the Board of Directors of SWIU, who will make the final decision. The winner receives a monetary award and one year free membership to Society of Women in Urology.

Visit the SWIU website at www.swiu.org for more information.
SWIU Membership Information

Member Benefits
If you have questions about applying for membership, the member benefits or the categories of membership, please contact SWIU at (847) 517-7225 or email us at ann@wjweiser.com.

Meetings
SWIU meets annually at a special breakfast held in conjunction with the annual meeting of the American Urological Association (AUA). Offered at a different site each year, the meeting presents an unmatched opportunity for serious learning as well as networking through meeting new members and welcoming old friends. A guest speaker presents on a timely topic for women in medicine and includes scientific and research news, as well as business issues such as marketing and managed care. You’ll also enjoy relaxing at a location that has been selected for its beauty, comfort and amenities. A special meeting just for networking is also held one evening at the AUA meeting. It is an important opportunity to meet SWIU members at an informal gathering and to establish relationships that you will value throughout the year.

Membership Directory
One of our favorite member benefits, the directory is updated annually and provides valuable information you can’t get anywhere else. The current member list includes phone and fax numbers and email addresses. We also include the subspecialty of each member and whether she accepts referrals.

Mentor Program
Unique to SWIU, this is a member benefit we are especially proud of. Included in the directory, each physician listed has agreed to answer questions and give opinions and advice in the categories of: Academic & Clinical Issues, Practice Management & Finance, Workplace Issues, Family Issues, Organized Urology & Public Speaking, International Urology, Military Physicians and issues of particular interest to African-American, Asian or Latino women. These volunteers are available by phone, fax, and email. It’s a special member benefit that works only when you use it.

SWIU News
Published three times a year, the SWIU newsletter offers a calendar of events, job notices, AUA reports, feature articles from our members and the President’s Message. Members are encouraged to submit articles of interest. We are also happy to recognize your personal and professional accomplishments in the newsletter.

Networking
Networking is a vital and valuable way to gain new knowledge and insight, and perhaps make a friend along the way. Through our annual meeting, membership directory and mentor program, SWIU members have access to the finest female minds in urology! Choose a quiet moment for a phone call or attend a meeting where your voice is one of those being heard. We need you! And we need each other!

Find a Doctor
SWIU offers this quick and easy find-a-doctor feature on the SWIU homepage. Members and non-members alike can locate female urologists throughout the United States and internationally at just the click of a button.
Membership Categories

Active
Must be a member in good standing of the American Urological Association. Must have acceptably completed an accredited urologic training program or its equivalent in a foreign country. Active members have voting privileges.

Affiliate
Must be a physician in a related field of medicine and science who cannot qualify for active membership or a non-physician who, by professional or personal accomplishments, has contributed significantly to medicine in general or the specialty of urology in general. Affiliate members may not vote.

Resident
Must have graduated from an acceptable medical school with receipt of Doctor of Medicine degree or an equivalent degree. Must be enrolled in a resident program credentialed by the Accreditation Council for Graduate Medical Education (ACGME) or such similar body in a foreign country. Resident members may not vote.
