SWIU Annual Breakfast Meeting

Sunday, May 8, 2016
6:30 a.m. – 10:00 a.m.
Marriott Marquis San Diego Marina
Marina Ballroom E
Welcome to San Diego for the Annual AUA Meeting! The Society of Women in Urology events at the AUA will include the Annual Breakfast Meeting, the Women Leaders in Urology Forum and the SWIU Networking Reception.

On behalf of the entire SWIU Board, I invite everyone to participate in all of these wonderful sessions.

During the 36th Annual Breakfast Meeting, Dr. Richard Babayan, AUA President-Elect, will provide an AUA Update. The Keynote Speaker will be Judy Rosenbloom, Founder & President of JR Associates, a 20-year global life sciences reimbursement consulting firm. Judy is actively involved with evolving health policies with public and private payers as a result of the Accountable Care Act. At this critical time when the business of health care is in a constant flux, we are delighted to welcome her to speak at our meeting. Judy will discuss perspectives of physician, hospital and payer payment reforms, how it will affect urologic practices, and implications to the patient. Additionally, we will present our Elisabeth Pickett Research Award and SBUR/SWIU Award for Excellence in Urologic Research winners.

The 11th Annual Women Leaders in Urology Forum on Saturday will be led by Dr. Nicole Miller from Vanderbilt University. Dr. Miller has assembled a stellar, all-female panel to discuss “Contemporary Cases in Endourology.” Panelists include Dr. Amy Krambeck (Mayo Clinic, Rochester), Dr. Jodi Antonelli (University of Texas Southwestern Medical Center), and Dr. Sara Best (University of Wisconsin Hospital and Clinics). Our Networking Reception follows, where we will honor this year’s Christina Manthos Mentoring Award winner.

We thank you for joining us in San Diego. I hope you enjoy the educational and networking opportunities this meeting has to offer!

SWIU WOMEN LEADERS IN UROLOGY FORUM

Educational Needs
There are varying levels of evidence supporting the different treatment modalities in stone disease and perioperative management of stone patients. Additionally, there are controversies regarding the “success/stone free rates” of these modalities. Often urologists practice based on prior personal experience and individual skill sets rather than based on guidelines and evidence from the literature. This discussion will aim to synthesize the available scientific literature for surgical stone disease management, thus increasing the knowledge base of the target audience and encouraging the practice of evidence-based medicine.

Educational Objectives
At the conclusion of the SWIU at the AUA 2016 Annual Meeting, attendees should be able to:

- Apply evidence based decision-making to the treatment of ureteral and renal stone disease.
- Review recent guidelines from the AUA for Management of Ureteral Calculi.
- Utilize current literature to define stone-free rates and compare various stone treatment modalities.
- Describe the utilization of prophylactic antibiotics for percutaneous nephrolithotomy.

AUA ACCREDITATION INFORMATION

Accreditation: The American Urological Association (AUA) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Credit Designation: The American Urological Association designates this activity for a maximum of 1.0 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Non-physician Health Professionals: The AUA is not accredited to offer credit for non-physician health professionals. However, the AUA will issue documentation of participation that states that the activity was certified for AMA PRA Category 1 Credit™.

Evidence Based Content: It is the policy of the AUA to ensure that the content contained in this CME activity is valid, fair, balanced, scientifically rigorous, and free of commercial bias.

AUA Disclosure Policy: All persons in a position to control the content of an educational activity (i.e., activity planners, presenters, authors) participating in an educational activity provided by the AUA are required to disclose to the provider any relevant financial relationships with any commercial interest. The AUA must determine if the individual’s relationships may influence the educational content and resolve any conflicts of interest prior to the commencement of the educational activity. The intent of this disclosure is not to prevent individuals with relevant financial relationships from participating, but rather to provide learners information with which they can make their own judgments.
Resolution of Identified Conflict of Interest: All disclosures will be reviewed by the program/course directors or editors for identification of conflicts of interest. Peer reviewers, working with the program directors and/or editors, will document the mechanism(s) for management and resolution of the conflict of interest and final approval of the activity will be documented prior to implementation. Any of the mechanisms below can/will be used to resolve conflict of interest:

- Peer review for valid, evidence-based content of all materials associated with an educational activity by the course/program director, editor, and/or Education Content Review Committee or its subgroup.
- Limit content to evidence with no recommendations.
- Introduction of a debate format with an unbiased moderator (point-counterpoint).
- Inclusion of moderated panel discussion.
- Publication of a parallel or rebuttal article for an article that is felt to be biased.
- Limit equipment representatives to providing logistics and operation support only in procedural demonstrations.
- Divestiture of the relationship by faculty.

Off-label or Unapproved Use of Drugs or Devices: It is the policy of the AUA to require the disclosure of all references to off-label or unapproved uses of drugs or devices prior to the presentation of educational content. The audience is advised that this continuing medical education activity may contain reference(s) to off-label or unapproved uses of drugs or devices. Please consult the prescribing information for full disclosure of approved uses.

Disclaimer: The opinions and recommendations expressed by faculty, authors and other experts whose input is included in this program are their own and do not necessarily represent the viewpoint of the AUA.

Consent to Use of Photographic Images: Attendance at or participation in AUA meetings and other activities constitutes an agreement by the registrant to AUA’s use and distribution (both now and in the future) of the attendee’s image or voice in photographs and electronic reproductions of such meetings and activities.

Audio, Video and Photographic Equipment: The use of audio, video and other photographic recording equipment by attendees is prohibited inside AUA meeting rooms.

Reproduction Permission: Reproduction of written materials developed for this AUA course is prohibited without the written permission from individual authors and the American Urological Association.

Special Assistance/Dietary Needs: The American Urological Association complies with the Americans with Disabilities Act §12112(a). If any participant is in need of special assistance or has any dietary restrictions, please see the registration desk.

Keynote Speaker: Judy Rosenbloom, Founder and President of JR Associates
Christina Manthos Mentoring Award
SWIU founded the Christina Manthos Mentoring Award to honor the memory of an esteemed colleague. Christina Manthos was an extraordinary young urologist whose life was sadly curtailed by breast cancer. In her memory, SWIU has established an annual award to recognize men or women who have been extraordinary mentors to female urologists. SWIU believes that a mentor is a very important element to professional women and wants to encourage those who set a good example.

Elisabeth Pickett Research Award
The Elisabeth Pickett Research Award provides small research grants for basic science or clinical urologic research. The awards may be used to supplement a current project or to initiate a new study. Candidates for this award include trained urologists (MD/DO), urology residents, urology fellows or post-doctoral basic scientists interested in researching urologic related diseases and dysfunction.

SWIU/SBUR Award for Excellence in Urological Research
SWIU and the Society for Basic Urologic Research (SBUR) have a common interest in recognizing female scientists with an accomplished background of basic science urological research. This award represents the collaborative efforts of these two societies toward their common goal. Award winners are members of SBUR who hold an MD and/or a PhD.
Member Benefits

Since its inception, SWIU's focus has been primarily in the following areas: mentoring resident members, highlighting women leaders in urology, supporting the research efforts of women in urology and providing networking venues for its members.

To that effect, SWIU is happy to provide several benefits to its members, including the SWIU Annual Events at the AUA, networking opportunities, the SWIU Mentor Program, the SWIU Membership Directory, the SWIU Newsletter, and the Find-A-Doctor Program.

SWIU also offers a meeting opportunity for members and residents at the annual SWIU Winter Meeting held in January. The meeting offers learning experiences through lectures and hands-on labs, as well as networking opportunities during social events.

Membership Categories

Active
Must be a member in good standing of the American Urological Association. Must have acceptably completed an accredited urologic training program or its equivalent in a foreign country, or must have acceptably completed an accredited PhD in an allied basic science field and be currently active in urologic research. Active members have voting privileges.

Affiliate
Must be a physician in a related field of medicine and science who cannot qualify for active membership or a non-physician who, by professional or personal accomplishments, has contributed significantly to medicine in general or the specialty of urology in general. Affiliate members may not vote.

Resident
Must have graduated from an acceptable medical school with receipt of Doctor of Medicine degree or an equivalent degree. Must be enrolled in a resident program credentialed by the Accreditation Council for Graduate Medical Education (ACGME) or such similar body in a foreign country. Resident members may not vote.

If you have questions about applying for membership, the member benefits or the categories of membership, please contact SWIU at (847) 517-7225 or email us at info@swiu.org. For more information, please visit our website: www.swiu.org.
