

SWIU Speaker Database Application

Thank you for your interest in being added to the Society of Women in Urology's speaker database. We ask that all individuals included in the database have current SWIU memberships. If you are not sure of your membership status or need help logging into the members only section of the SWIU website, you can reach out to our management office at info@swiu.org. To renew online or apply for membership, [visit the membership section of our website](#).

The SWIU speaker database is a benefit for SWIU members. The database is available to the AUA for national and international speaking engagements and to other individuals and organizations searching for a speaker, upon request. Please note, SWIU is not vetting submissions and speaker listings in the database do not represent a SWIU endorsement.

Instructions: Please provide the information requested and return the completed form. Your responses will be included in a searchable Excel spreadsheet available upon request approval. You can also send a form to update previously submitted information. Completed forms and questions should be sent to info@swiu.org.

Type of Application: _____

SWIU Member: _____

First Name: _____

Last Name: _____

Credentials (e.g., MD, MS, FACS): _____

Email: _____

City: _____

State: _____
